

## **Public Policy Major Program Learning Outcomes**

1. Understand public policy problems, concepts, processes, institutions and actors through a multidisciplinary lens, with perspectives from the local to the global.
2. Analyze public issues from a range of ideological, demographic, and socioeconomic perspectives, including those that are underrepresented in the public policy process.
3. Apply quantitative and qualitative tools to real-world policy issues.
4. Communicate complex ideas and findings in written and oral forms.
5. Demonstrate teamwork, ethical decision-making, management and leadership skills.
